

# Centre for Knowledge Integration Speaker Series

## Integrating Expertise: Improving the Advancement of Women and Minority Scientists

Carla Fehr, Associate Professor, Philosophy, Iowa State University

Dr. Fehr works in the philosophy of biology, feminist philosophy and feminist science studies. She is a co-Principal Investigator for ISU ADVANCE, a multi-million dollar National Science Foundation grant, which is designed to test strategies for promoting the advancement and retention of women and minorities in science, technology, engineering and mathematics.

All welcome.

February 5, 1:30 – 3:00
