

Meet, present and train online, live and on-demand.

Adobe Acrobat® Connect™ Professional (formerly Macromedia® Breeze® Meeting) elevates online training, marketing, sales and web conferencing to a whole new level, delivering high-impact communications everyone can access instantly.

Acrobat® Connect™ Professional is a rich web communication system that lets you reach your audience anytime with engaging multimedia content. And, because Acrobat® Connect™ Professional is deployed using Flash Player, already installed on more than 98% of browsers worldwide, your audience can join your Acrobat® Connect™ Professional online meetings, training courses and on-demand presentations instantly:

- **Training** – A learning management and reporting/tracking system that allow customer training programs to mix and re-use a variety of training activities, including self-paced Acrobat® Connect™ Professional courses, third party content and live, instructor-led training.
- **Meeting/Seminar** – Offers a synchronous web conferencing module for collaborative/online meetings and enables meeting rooms, including custom layouts and all content to be automatically saved. Rooms are always available, with all notes, content and chat still intact.
- **Server** –The Adobe Connect server integrates real-time and on-demand communications and provides user administration, tracking, reporting, and content management.
- **Presenter** – An on-demand content authoring tool and power point plug in enabling users instant access to compelling, self-running, rich-media presentations ensuring maximum transfer of knowledge in minimum time.
- **Events** – Acrobat® Connect™ Professional Events manages user registration, qualification, notification, automatic email reminders and tracking for large online seminars and presentations
