International Journal of Foundations of Computer Science (IJFCS) was started in 1990 to publish original articles contributing theoretical results in all areas of the foundations of computer science.

The notion of theoretical computer science has grown since 1990. Present idea of computing is no longer restricted to the shadows of classical Turing machines. Instead, the notion of computing is constantly being redefined by ideas inspired by the physical world with enormously rich features.

CALL FOR PAPERS

All supporters, fellows, and lovers of **Quantum Computing** are cordially invited to submit their articles related to quantum computing or quantum information to the

IJFCS Special Issue on Quantum Computing

Details: Please submit your contribution electronically to the undersigned in pdf or ps format. All submissions will be peer-reviewed. They should not have been previously published, nor coincidentally submitted elsewhere for publication.
Please be prepared to send the final version in IJFCS style defined in page http://www.worldscinet.com/style_files/ijfcs/112-readme_2e.shtml.

Schedule:
Deadline for submission: May 1, 2011
Acceptance notification: September 4, 2011
Final version due to: October 2, 2011
Publication: Late 2011 – Early 2012
