

## Post-doctoral and PhD positions opening

### *Technical University Munich*

There are postdoc and PhD positions available in Mathematical Physics/Quantum Information Theory in the Department of Mathematics at the Technical University in Munich (Germany). Applicants should be

- mathematicians, theoretical physicists or computer scientists,
- interested in mathematical physics, theoretical computer science, quantum information theory and/or other fields of quantum theory and its foundations,
- willing to contribute to undergraduate math education.

The positions are within the new group of Prof. Michael M. Wolf in the research unit mathematical physics.

Starting date is flexible. Positions are available from now on and candidates will be considered until all positions are filled. Apart from a CV (incl. grades, description of interests and a list of publications) applications (sent to [tum.qit@gmail.com](mailto:tum.qit@gmail.com)) should include names of senior scientists who could provide letters of recommendation.
