

UNIVERSITÉ
DE GENÈVE

The Faculty of Science of the University of Geneva is seeking to fill a position as

**Associate or Assistant (tenure track)
PROFESSOR**

in the field of quantum information, correlations and measurements

RESPONSIBILITIES: Full time appointment comprising teaching at bachelor, master and doctorate level and supervision of master and PhD theses. The successful candidate will have a solid background in quantum theory. He/she will be integrated in a leading department in quantum communication and will develop research activities on a national and international level in the field of quantum networks, measurements, correlations and non-locality.

QUALIFICATIONS AND REQUIRED EXPERIENCE: Ph.D. in physics or equivalent. Excellent research skills and publications in international journals as well as pedagogical qualifications (teaching and supervision of master and PhD students). The candidates should be fluent in both French and English (or willing to learn).

STARTING DATE: March 1st, 2015 or as agreed.

Applications including CV, list of publications, a research statement in the field of competence and the name of two references that can be contacted to provide recommendation letters must be submitted - exclusively online - before October 31st, 2014 to the University website <https://jobs.icams.unige.ch/> where a copy of the present advertisement may be found.

In a perspective of parity, applications by women are particularly encouraged and welcome.
