

Yale Prize Postdoctoral Fellowship in Condensed Matter Theory

The Condensed Matter Theory group at Yale University seeks outstanding applicants for a Yale Physics Prize Postdoctoral Fellowship endowed by Yale University, to start in the Summer or Fall of 2019. Preference will be given to applicants with expertise in quantum aspects of condensed matter theory and research interests in the general areas of electron correlations, low-dimensional systems, topological phases of matter, disorder, cold atomic gases, and physics of quantum computation and quantum information. Applications should include a CV with publication list and outline of research interests, and may also include up to four selected preprints and reprints. Candidates should arrange for three recommendation letters to be sent. Electronic submission (in **PDF** format) of applications and supporting materials is strongly preferred. Please submit all materials, including recommendation letters, <http://apply.interfolio.com/52229>. Early applications are encouraged.

Applications and letters may be submitted at any time but must be received no later than October 28, 2018 to guarantee full consideration.

Yale is an Affirmative Action/Equal Opportunity Employer. Yale values diversity among its students, staff, and faculty and strongly welcomes applications from women, persons with disabilities, protected veterans, and underrepresented minorities.
