

Summer School on Paradoxes in Quantum Physics

Island of Hvar, Croatia

September 2-6, 2019

Instructors:

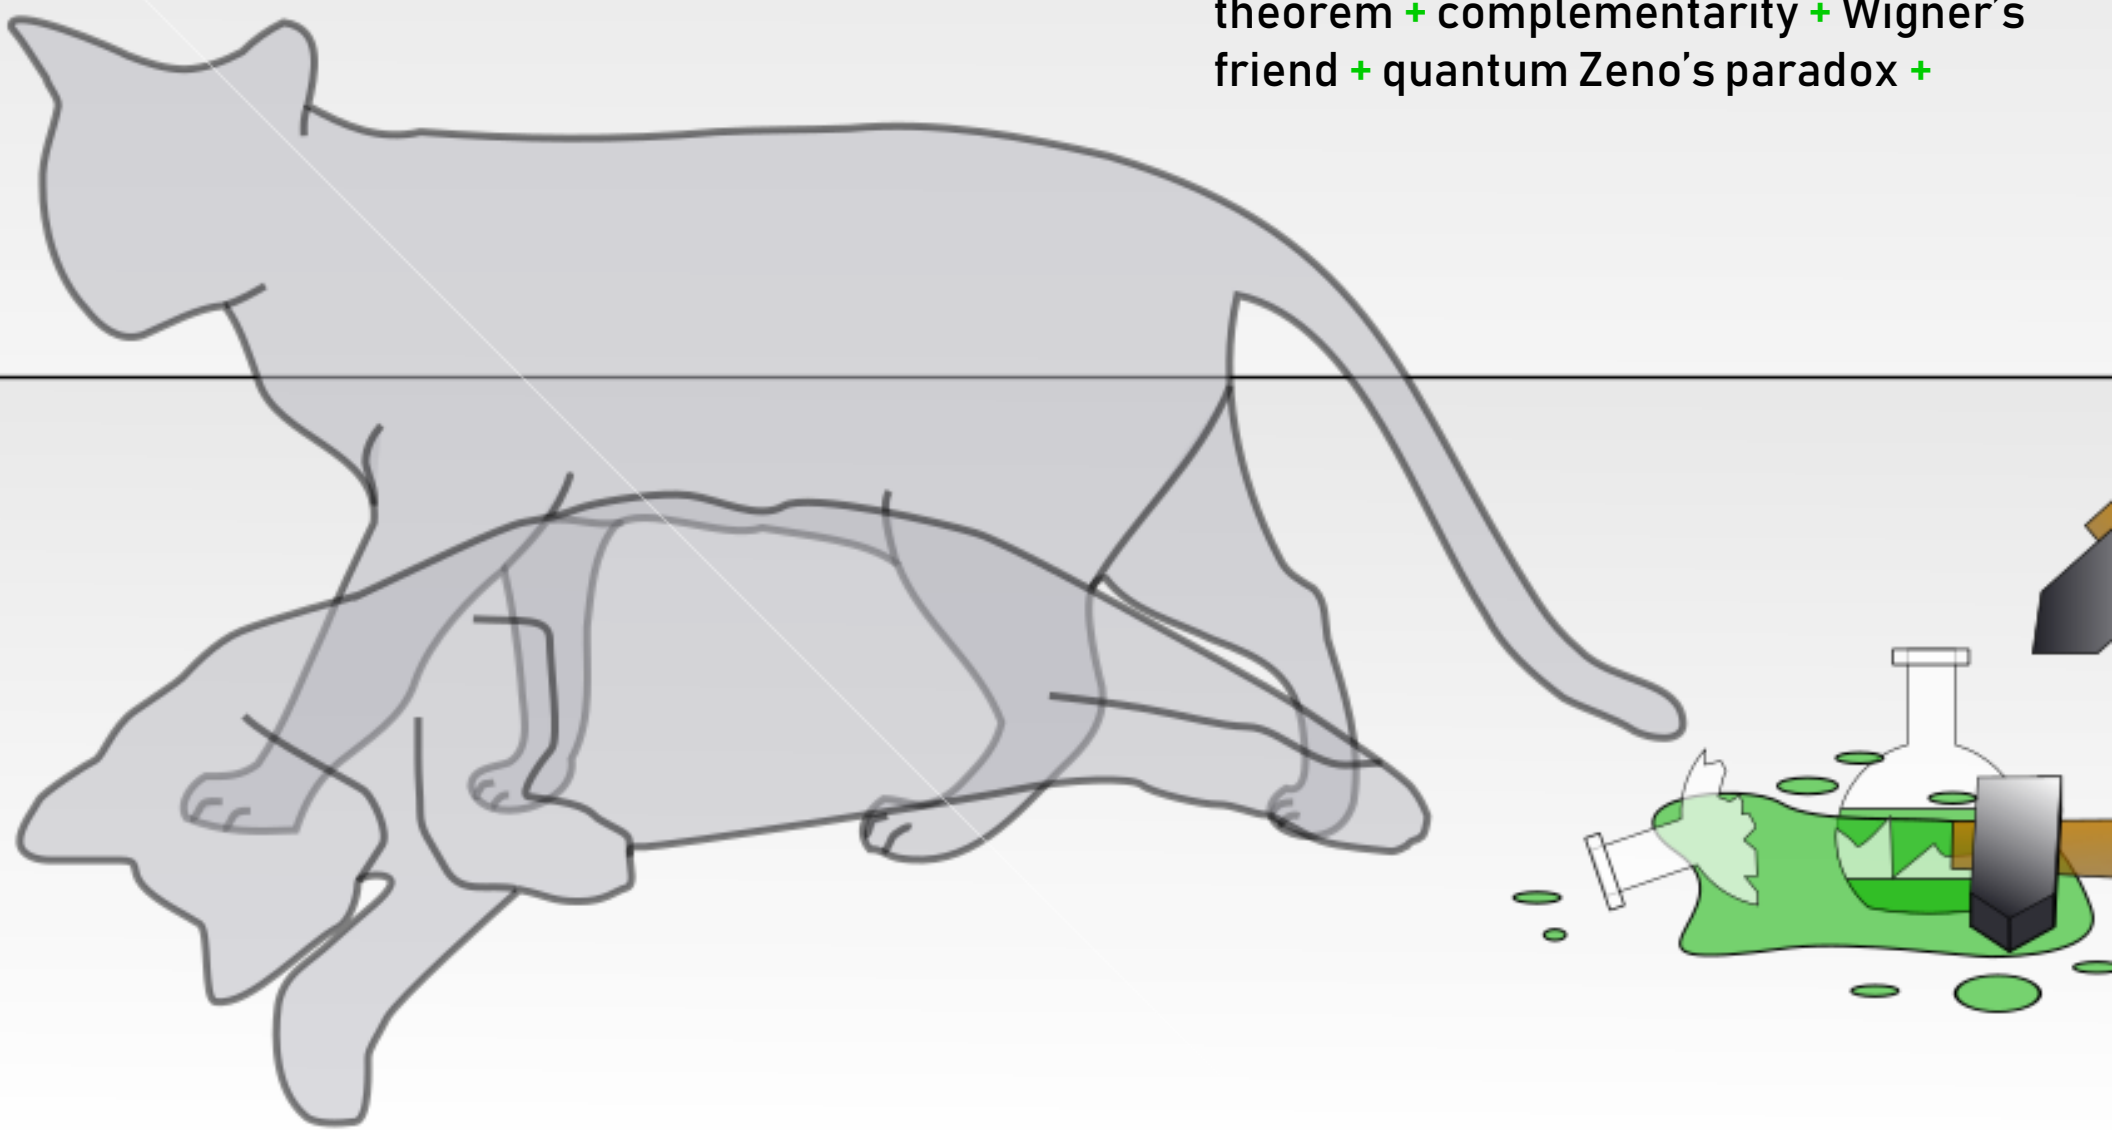

Jean Bricmont

Matthias Lienert

Roderich Tumulka

Lev Vaidman

+ Schrödinger's cat + double-slit experiment + Elitzur-Vaidman bomb + delayed-choice experiment + Einstein-Podolsky-Rosen paradox + Afshar's experiment + two-valuedness of spin + Renner's paradox + Bell's theorem + quantum measurement problem + nested interferometers + quantum eraser + Malament's theorem + classical electron radius + Kochen-Specker theorem + complementarity + Wigner's friend + quantum Zeno's paradox +
